FOR IMMEDIATE RELEASE

GREENHOMES AMERICA RECEIVES TOP NY STATE ENERGY AWARD FOR EIGHTH CONSECUTIVE YEAR!

Syracuse, N.Y. — February 16, 2010 — GreenHomes America, the largest industry-accredited home performance contractor in New York, has won the Home Performance with ENERGY STAR® Outstanding Achievement and Excellence in Energy Efficiency Award for 2008-2009. This bi-yearly award recognizes innovation in Home Performance, as well as reflects the comprehensive services and high quality home improvements and energy efficiency savings delivered to New York homeowners. This is the eighth consecutive year GreenHomes America has been recognized with this honor.

“President Obama’s enthusiasm, the economic stimulus act, the ENERGY STAR program, and many years of great work by NYSERDA (New York State Energy Research and Development Authority) have put Home Performance Contracting in the national lime light. This makes receiving the Outstanding Achievement Award for the eighth year in a row even more of an honor than it has in the past!” said GreenHomes America President Brett Knox. “Winning this prestigious award again is a huge tribute to our exceptional employees and their relentless pursuit of quality and customer satisfaction. Their drive to promote energy efficiency and save our customers money on their utility bills is validated by this award and we are very proud of the achievement. ”

Sponsored by NYSEDA, the Home Performance with ENERGY STAR awards were created to honor leading builders, contractors, home energy raters, and trade allies for their significant advancements in the area of Home Performance Contracting. GreenHomes America was the first contractor to join the Home Performance with ENERGY STAR program in 2001.

The award was presented February 11 at the 2010 Solutions for Success Conference in Saratoga Springs, New York. Frank LaSala, General Manager of GreenHomes America's Syracuse office was on-hand to accept the award.

"We thank NYSEDA for its leadership, and our customers for entrusting us with their homes," said Mr. LaSala.

About GreenHomes America

GreenHomes America (www.greenhomesamerica.com) is the largest industry-accredited, single-source provider of Home Performance Contracting in the U.S. Through offices nationwide, GreenHomes America offers an award-winning home improvement service that significantly enhances the comfort, energy efficiency, and air quality of existing single-family homes. GreenHomes America delivers a full line of services including comprehensive home assessments; windows and doors; high-efficiency furnaces, boilers, and water heaters; insulation and air-sealing; indoor air quality; and solar systems. GreenHomes America also helps homeowners conserve energy and reduce carbon emissions to help them do their part to protect the environment and reduce the country's dependence on foreign oil. GreenHomes America works with *Home Performance with ENERGY STAR*®, is a Building Performance Institute (BPI) accredited organization, and is a founding member of Efficiency First. GreenHomes America is a division of The Linc Group (www.thelincgroup.com).
